

MD. AL-MUHEETU

Associate Software Engineer (Mobile & Web)

Dhaka, Bangladesh | 01789803342 | almuheetu@gmail.com
| **Portfolio** | **GitHub** | **LinkedIn** | **UpWork**

PROFESSIONAL SUMMARY

Results-driven Software Engineer with 3+ years of overall tech experience, including 2.5+ years specialized in mobile development (Android & React Native). Successfully engineered and published two production-grade apps on the Google Play Store — BariPlus (5K+ downloads, 4.8★) and Bidyava (100+ downloads, 4.7★). Expert in building high-performance native apps with Kotlin/Jetpack Compose and cross-platform solutions, including robust POS and Ticket Booking systems. Leverages full-stack expertise to deliver seamless API integration, clean MVVM architecture, and superior UI/UX. Strong analytical skills backed by 90+ HackerRank DSA solutions.

TECHNICAL SKILLS

Mobile Development: Kotlin, Jetpack Compose, XML, React Native (Expo/CLI), TypeScript, NativeWind, MVVM, Design Patterns, Dagger/Hilt

Networking & API: REST APIs, Retrofit, Moshi, OkHttp, API Response Caching, PHP (Basic)

Web Technologies: JavaScript, React.js, Tailwind CSS, Daisy Ui, HTML5, CSS3, SASS/SCSS, jQuery

Tools & Database: Git, GitHub, GitLab, Codeberg, Postman, Slack, Jira, Room Database, SQLite

PROFESSIONAL EXPERIENCE

Associate Software Engineer

Softzino Technologies | Dhaka, Bangladesh *May 2024 – Present*

- Lead Android development utilizing Kotlin and Jetpack Compose for modern, reactive user interfaces.
- Architect applications using MVVM and Repository patterns to ensure high scalability and maintainability.
- Consume complex REST APIs using Retrofit and handle data parsing with Moshi.
- Implement offline-first capabilities by integrating Room Database and local caching strategies.
- Collaborate with cross-functional teams via Slack and manage API testing through Postman.

Web Developer (Freelance)

Upwork.com | Remote *Jan 2023 – Jan 2025*

- Built and maintained SEO-friendly web applications using modern JavaScript frameworks.
- Focused on responsive layouts, client communication, and high-quality code delivery.

Web Designer & Developer

WebDev Software Solutions | Joypurhat, Bangladesh *Nov 2022 – May 2024*

- Developed responsive, user-centric websites using HTML, CSS, JavaScript, SCSS, and jQuery.
- Managed client projects and custom feature integrations using WordPress and PHP.

Web Designer Intern

Bdevs | Dhaka, Bangladesh *Aug 2022 – Oct 2022*

- Assisted in UI/UX development with SCSS and Bootstrap.
- Tested for cross-browser compatibility and optimized page speed.

Web Design Trainee

WebDev Software Solutions | Joypurhat, Bangladesh *Apr 2022 – Jul 2022*

- Developed responsive interfaces using HTML, CSS, and JavaScript.
- Built adaptive and mobile-friendly web layouts.

KEY PROJECTS

Barnoi POS — Point of Sale System

- Engineered a production-grade POS system using Kotlin and Jetpack Compose.
- Implemented workflows for sales, history, exchanges, and refunds.
- Supported multi-payment processing (Cash, Card, MFS, Voucher, Store Credit).
- Integrated product search, barcode scanning, inventory management, and loyalty/discount systems.
- Leveraged MVVM, StateFlow, Coroutines, and the Repository Pattern with REST API integration.
- Featured thermal printer integration and optimized POS UI/UX.

Published Applications (Google Play Store)

- **Bidyava (Kotlin): —** eLearning & exam preparation app. Engineered a subject-wise model test and eLearning platform (BCS exam preparation) using Kotlin and MVVM architecture, ensuring stable state management, smooth navigation, and optimized performance across devices. Reached 100+ downloads with a 4.7★ rating on the Google Play Store.
- **Bariplus (React Native):** Developed and successfully submitted to the Google Play Store. A production-grade mobile application featuring scalable architecture, secure API integration, and a highly responsive UI built with modern Android development standards. (5K+ downloads, 4.8★ rating)

Practice & Learning

- Kotlin **problem-solving** (HackerRank practice) and small experimental apps to learn architectural patterns.

EDUCATION

Bachelor of Science in Computer Science & Engineering

World University of Bangladesh *2025 – Present (Ongoing)*

Higher Secondary Certificate (Science)

Jahangirpur Govt. College *2019 – 2021*

RELEVANT COURSES

- Android Development(Softzino Technologies)
- Web Design/Development
- Web Design (BanglaDevs)
- PSD to HTML (BanglaDevs)
- SASS & Bootstrap (BanglaDevs)
- Web Development (Programming Hero)

LANGUAGES & INTERESTS

- **Languages:** Bengali (Native), English (Professional), Hindi (Conversational).
- **Interests:** Exploring Full-stack development, Competitive programming, and solving coding challenges.
